1 Introduction

The Group Board operates in accordance with its legal powers and responsibilities derived from statute, the company's articles of association and general law. It has created a corporate governance structure to allow it to use those powers, directly and through delegation, in order to ensure good corporate governance. This Manual describes the various bodies in the Group through which governance is delivered and sets out detailed provisions relating to the operation of those bodies.

The Group Board has regard to generally accepted standards of corporate governance in discharging its powers and responsibilities. To that end it has adopted an external governance code, the UK Corporate Governance Code ("the Code"), to assist it. The Code sets out the following principles:

1.1 Board Leadership and Company Purpose

- A. A successful company is led by an effective and entrepreneurial board, whose role is to promote the long-term sustainable success of the company, generating value for shareholders and contributing to wider society.
- B. The board should establish the company's purpose, values and strategy, and satisfy itself that these and its culture are aligned. All directors must act with integrity, lead by example and promote the desired culture.
- C. The board should ensure that the necessary resources are in place for the company to meet its objectives and measure performance against them. The board should also establish a framework of prudent and effective controls, which enable risk to be assessed and managed.
- D. In order for the company to meet its responsibilities to shareholders and stakeholders, the board should ensure effective engagement with, and encourage participation from, these parties.
- E. The board should ensure that workforce policies and practices are consistent with the company's values and support its long-term sustainable success. The workforce should be able to raise any matters of concern.

1.2 Division of Responsibilities

- F. The chair leads the board and is responsible for its overall effectiveness in directing the company. They should demonstrate objective judgement throughout their tenure and promote a culture of openness and debate. In addition, the chair facilitates constructive board relations and the effective contribution of all non-executive directors, and ensures that directors receive accurate, timely and clear information.
- G. The board should include an appropriate combination of executive and non-executive (and, in particular, independent non-executive) directors, such that no one individual or small group of individuals dominates the board's decision-making. There should be a clear division of responsibilities between the leadership of the board and the executive leadership of the company's business.
- H. Non-executive directors should have sufficient time to meet their board responsibilities. They should provide constructive challenge, strategic guidance, offer specialist advice and hold management to account.
- I. The board, supported by the company secretary, should ensure that it has the policies, processes, information, time and resources it needs in order to function effectively and efficiently.

1.3 Composition, Succession and Evaluation

- J. Appointments to the board should be subject to a formal, rigorous and transparent procedure, and an effective succession plan should be maintained for board and senior management. Both appointments and succession plans should be based on merit and objective criteria and, within this context, should promote diversity of gender, social and ethnic backgrounds, cognitive and personal strengths.
- K. The board and its committees should have a combination of skills, experience and knowledge. Consideration should be given to the length of service of the board as a whole and membership regularly refreshed.
- L. Annual evaluation of the board should consider its composition, diversity and how effectively members work together to achieve objectives. Individual evaluation should demonstrate whether each director continues to contribute effectively.

1.4 Audit, Risk and Internal Control

- M. The board should establish formal and transparent policies and procedures to ensure the independence and effectiveness of internal and external audit functions and satisfy itself on the integrity of financial and narrative statements.
- N. The board should present a fair, balanced and understandable assessment of the company's position and prospects.
- O. The board should establish procedures to manage risk, oversee the internal control framework, and determine the nature and extent of the principal risks the company is willing to take in order to achieve its long-term strategic objectives.

1.5 Remuneration

- P. Remuneration policies and practices should be designed to support strategy and promote long-term sustainable success. Executive remuneration should be aligned to company purpose and values, and be clearly linked to the successful delivery of the company's long-term strategy.
- Q. A formal and transparent procedure for developing policy on executive remuneration and determining director and senior management remuneration should be established. No director should be involved in deciding their own remuneration outcome.
- R. Directors should exercise independent judgement and discretion when authorising remuneration outcomes, taking account of company and individual performance, and wider circumstances.

2 Governance Framework

The Group Board manages governance through its own activity and that of its committees, the boards of Group subsidiaries and the Executive team, all of which are accountable to the Group Board.

2.1 Places for People Group Limited

This is the “**Group parent**” and holder of a controlling interest in all Group members. It is a non-asset holding company limited by guarantee and is registered in England. Its members are the non-executive members of its board of directors from time to time. It has no external shareholders. It cannot distribute profit by dividend.

The Group Board has identified the following areas as the main focus for its activity:

1. Group purpose, strategy, values, culture and governance;
2. customer experience and engagement;
3. colleague engagement;
4. approval of the consolidated Group business plan;
5. agreeing, as part of the business planning process, target returns, acknowledging that different measures of return (ROCE/EBITDA) might be appropriate for different businesses and different levels of return might be appropriate for different businesses;
6. protecting social housing assets, safeguarding taxpayers’ interests and the reputation of the regulated social housing sector and engagement by the Group with relevant housing regulators;
7. continuing resource allocation (covering all types of resource);
8. funding (including treasury management);
9. the review and monitoring of overall Group business (including investments and joint ventures):
 - (a) operational performance
 - (b) compliance
 - (c) health, safety and wellbeing
 - (d) financial performance;
10. setting strategy for investments/disposals including registered provider mergers/transfers of engagements.

The Group contains a number of registered providers of social housing (“RPs”) and registered social landlords (“RSLs”). The Group parent has a controlling interest in the English RPs and a Scottish RSL. Together, these make up the Group’s “**Regulated Businesses**”. The Group parent has committed itself to direct the Group in a manner that provides certain protections for the Regulated Businesses. Details may be found under “Regulated and Non-Regulated Businesses: co-ordination and protections”.

Certain matters are reserved to the Group Board. This can be an absolute arrangement by which authority on a specified matter rests only with the Group Board or a qualified arrangement by which relevant authority may be delegated by the Group Board to some other body within the Group’s governance framework (such as a Group Board committee, a subsidiary board or management) up to declared limits.

The Group Board relies on boards of certain subsidiaries to contribute to effective governance and it has also established a number of standing committees and may from time to time establish working parties to assist it. General descriptions of the remit of each subsidiary board, committee

or working party are set out below but those descriptions do not limit the terms of reference of each committee or working party.

Each committee and working party of the Group Board is expected to have regard to the regulatory obligations of any subsidiary when considering a proposal in relation to that subsidiary or when considering proposals that may have varying impact across a range of Group subsidiaries.

2.2 Audit & Risk Committee

The Committee reviews the financial statements of members of the Group (including but not limited to each regulated housing provider of social housing within the Group) and the audit processes followed in connection with them. It promotes good processes to ensure high standards of control and compliance and monitors the management approach to those things.

The Committee reviews the strategic risks faced by the Group and the approach taken by management in relation to managing risk.

2.3 Remuneration & Nominations Committee

The Committee considers the policy for reward across the Group. It approves any pay increases, bonus arrangements, long term incentive arrangements and pension arrangements for executive directors and the company secretary. It also sets fee levels for non-executive members of the Group Board and for members of subsidiary boards and customer representative bodies within the Group.

The Committee assesses the skills and experience needed on the Group Board in executive and non-executive capacities and makes recommendations in relation to suitable candidates. It approves recommendations for appointments to subsidiary boards.

The Committee reviews the Group's governance framework and advises the Group Board on key governance issues.

2.4 Development Committee

The Committee is charged by the Group Board with exercising oversight in relation to the Group's existing development and placemaking activity. It monitors project management as well as operational and financial performance in relation to existing projects.

The Committee scrutinises management initiatives for significant new activity prior to them reaching the stage of being presented for board approval.

2.5 Treasury Committee

The Committee, on behalf of the Group Board, sets treasury strategy for the Group and is responsible for overseeing the management of the Group's financial assets, its financial liabilities and its liquidity position.

2.6 Pensions Working Party

The Working Party addresses material pensions projects (including litigation) and makes recommendations to the Group Board on appropriate courses of action. Most of the defined benefit pension cost and risk across the Group rests with subsidiaries involved in social and affordable housing provision.

2.7 Places for People Treasury plc

This company is a wholly-owned subsidiary of the Group parent. It is limited by shares and is registered in England.

The company is the treasury vehicle for the Regulated Businesses and is responsible for managing the financial assets, financial liabilities and liquidity position of the Regulated Businesses.

It is responsible for raising capital to support the Group's Regulated Businesses in connection with their business plans in each year.

It draws on the services of the Group's treasury function.

2.8 Places for People Ventures Limited

This is a direct subsidiary of the Group parent and within the Group structure it is the senior company that is not involved with social and affordable housing provision. The company's board has the same membership as that of the Group parent.

The company has a controlling interest in a number of subsidiaries. Together, these make up the Group's "**Non-Regulated Businesses**".

It is a company limited by shares and is registered in England. It is able to distribute profit by dividend to its shareholders among which is Places for People Homes Limited, one of the RPs.

The company's board is concerned with the performance and value of the operating businesses in which it has invested. In that context, 'value' may be measured in a number of ways including profitability leading to dividend, capital growth, social impact and the enhancement of the Group's wider placemaking capacity.

2.9 Places for People Finance plc

This company is a wholly-owned subsidiary of the Group parent. It is limited by shares and is registered in England.

The company is the treasury vehicle for the Non-Regulated Businesses and is responsible for managing the financial assets, financial liabilities and liquidity position of the subsidiaries in the Non-Regulated part of the Group.

It is responsible for raising capital to support the Group's Non-Regulated Businesses in connection with their business plans in each year.

It draws on the services of the Group's treasury function.

2.10 PfP Capital Limited

This company is a wholly-owned subsidiary of the Group parent. It is limited by shares and is registered in England.

The company acts as a manager of third party investor funds. Other Group companies may be investors in some of its funds. The company's approach in each fund will be influenced by the views of its investors in that fund. It will establish a forum to engage with the investors in each fund and any Group investor may be represented in the relevant forum but it will have influence only in proportion to the level of its investment in order that the company can demonstrate an even-handed approach to the interests of its different investors.

The company's board consists of some Group Board members but a majority of people who are both non-executive and independent of other Group companies. The board will operate a Risk & Compliance Committee, an Investment Committee and a Remuneration Committee. Those committees will report to the board of the company. That board will not report to the Group Board in respect of fund management decisions taken for specific funds.

There will be liaison between the Group Board's Audit & Risk Committee and the senior management of the company to seek assurance that the company has in place a suitable system of risk control and compliance. Responsibility for ensuring that the system is fit for purpose and functions properly rests with the Risk & Compliance Committee of the board of the company.

2.11 Pensions

Places for People Pension Trustee Limited is the corporate trustee of the Group's defined benefit pension scheme. The members of its board are appointed by the Group Board or by the scheme members.

2.12 Places for People International Limited

This company considers growth and social impact opportunities for the Group outside the UK.

3 Matters reserved to the Group Board

To enable it to offer suitable leadership and control, the Group Board has reserved the following matters to itself:

3.1 Appointments/Removals

1. Approval of recommendations (from the relevant Group Board committee, the Group Chair or the Group Chief Executive) for appointment of any executive director or non-executive director to a position on the Group Board or the boards of any of Places for People Ventures Limited, Places for People Treasury plc, Places for People Finance plc and PfP Capital Limited.

The exception to this provision applies in a situation in which all members of the Group Board have been incapacitated such that the Board is unable to hold a quorate meeting. In such an event, appointments may be made to the Group Board by the holders for the time being of the posts of Group Financial Controller and Managing Director of Places for People Homes Limited (or their nearest equivalent in the then prevailing management structure). Up to three appointments may be made in such an event, each for an initial term of twelve months. The appointees would then operate in accordance with the then current Governance Manual in order to further strengthen the Board and/or to take any decisions required in connection with the Group's business.

2. Removal from office of any member (executive or non-executive) of the Group Board in accordance with the prevailing articles of association (but, for the avoidance of doubt, any such removal shall not automatically operate to terminate the employment of any executive director).
3. Appointment and removal of the Group Company Secretary.
4. Appointment to and/or removal from the positions of the Chair of the Group Board and Senior Independent Director of the Group Board from time to time.
5. Appointment and/or removal of the Group's bankers, auditors and principal solicitors.
6. Approval of applications for (shareholding) membership of the Group parent company and removal of members in accordance with the Group Board's powers.
7. The exercise of any power of appointment to or removal from shareholding membership of a Group subsidiary that the Group parent may enjoy.
8. Appointment of any employer nominated member of the board of the corporate trustee of the Group's defined benefit pension scheme.

3.2 Finance

9. Agreement of Group borrowing policy provided that the power of agreement/variation may be delegated to (and withdrawn from) any board of a subsidiary or any committee of the Group Board.
10. Approval of Group parent company and Group consolidated financial statements and associated reports.

3.3 Strategic/Policy Issues

11. Approval of the Group strategic plan and annually approving the Group consolidated business and financial plans.

12. The exercise of any powers conferred on the Group parent in connection with the constitutions, membership or Group Board representation on the boards of Group subsidiaries from time to time.
13. Approval of any material change in the Group's business activity.
14. Approval of changes to the Group parent company's articles of association.
15. Approval of the Group purpose, strategy, values and culture.
16. Approval of any example of the following (whether recommended by management or by a subsidiary board) unless it falls within authority delegated by the Group Board to one of its committees, the board of a subsidiary or to management:
 - a. investments/capital expenditure/asset disposals or contracts containing commitments to material expenditure/asset disposals;
 - b. any corporate merger or acquisition;
 - c. any divestment of a Group company/association or the entire business of a Group company/association;
 - d. any application by any community benefit society or similar organisation to join the Group and any terms on which such membership of the Group is granted;
 - e. any joint venture arrangement.

3.4 Delegation of authority

17. Approving, reviewing and amending (where it considers it necessary) the terms of reference of any committee of the Group Board or the Places for People Ventures Limited board.
18. Setting and approving amendments to the Group Governance Manual and, specifically, the schedule of delegations to management.

21. Approval of any policy on related party transactions and approval of any transaction with a Group Board member (executive or non-executive) or a related party or any transaction in which a Group Board member or a related party has an interest.

3.6 Miscellaneous

22. Setting and approving amendments to the disciplinary procedures for non-executive directors/Group Board members.
23. Approval of any political donations.
24. Approval of any policy on charitable donations.
25. Approval of commencement or settlement of material litigation/arbitration.
26. Approval of any proposal for any Group member to give any guarantees, indemnities or securities in respect of non-Group entities or persons.

4 Financial Controls in Governance Framework

4.1 Financial rules

The Group has a number of key financial rules to which it adheres. They apply at a Group level and are:

- a) Interest cover is above 1.2
- b) Operating margin is above 20%
- c) Gearing is below 60%
- d) Interest rate exposure is below 70%.

Compliance with the financial rules allows the Group to pursue its treasury strategy from which the Regulated and Non-Regulated Businesses benefit. Those businesses, individually and collectively, are required to set, monitor performance against and adjust their business activity in order that, overall, the Group continues to observe the financial rules.

4.2 Intra-Group lending and guarantees

The default position for the Group is that there shall be no lending or guarantee provided between the Group's Regulated and Non-Regulated Businesses. This ensures the protection of the Group's social housing assets.

On the rare occasions where a third party's requirements prevent the adoption of this separation of interests, the Group shall require the subsidiaries involved in the transaction to take measures to ring fence cash on the relevant side of the Group to ensure that any liabilities from one side of the Group can be met on the other in the event of default, thereby fully protecting the assets of the lender/guarantor.

Places for People Homes Limited holds an investment of £200 million in shares in

Places for People Ventures Operations Limited. It expects a dividend on that

investment. No further equity investment will be made by any of the Regulated Businesses in any of the Non-Regulated Businesses.

4.3 Investment criteria: generally

- 4.3.1 Investment proposals may be considered variously by management, a subsidiary board and/or the Group Board (or one of its committees) depending on the nature and scale of the proposed investment and how it relates to any list of reserved or delegated matters within the governance framework.
- 4.3.2 Investment proposals must be considered in accordance with prevailing legislation. This will include considering how the proposal will promote the success of the company making the investment (currently set out in s.172 Companies Act 2006), regardless of whether that company is part of the Regulated Businesses or the Non-Regulated Businesses.
- 4.3.3 In addition, any charitable company must only invest in ways that are consistent with its charitable objects.

4.4 Investment criteria: Regulated Businesses

- 4.4.1 Where the proposal involves the making of an investment by one or more of the Regulated Businesses, in addition to complying with any statutory standards, the decision to invest must be considered by the decision-making manager or board to achieve at least one of the following **purposes**:
 - a) an increase in the provision of affordable housing
 - b) an increase in the speed at which affordable housing is provided
 - c) an increase in the provision of housing through regeneration projects or

projects in conjunction with Local Authorities or Homes England

- d) enabling the Regulated Business to hold property assets which generate a commercial return and provide the Regulated Businesses access to liquidatable assets, for example PRS assets
- e) improving the standard of the Group's affordable housing portfolio and making tenancies more sustainable for customers.

[Note that purpose 1.4(d) is unlikely to meet the charitable objects test and so should not be relied upon to support investments in the names of Cotman Housing Association Limited, Chorus Homes Limited, Places for People Living+ Limited or Castle Rock Edinvar Housing Association Limited.]

4.4.2 When considering a proposal to invest in order to achieve one of the stipulated purposes, the decision-making manager or board will consider the following **criteria**:

- a) Can the Regulated Business afford to make the proposed new investment?
- b) Can the Regulated Business afford to manage the impact if the risks associated with the totality of its investments materialise?
- c) Has the Regulated Business considered alternative investment options?
- d) Does the benefit of the investment outweigh the risks?
- e) Is this investment consistent with the Regulated Business' purpose/strategy?

and will provide a fully reasoned answer to the question(s) in the paper proposing the investment.

4.5 Treasury vehicles, financing strategy and treasury policies

The Group maintains a clear distinction between its Regulated Businesses (being the RPs and RSL) and its Non-Regulated Businesses. Borrowing is undertaken separately for each set of businesses with no recourse between them. Places for People Treasury plc is the treasury vehicle for the Regulated Businesses. Places for People Finance plc is the treasury vehicle for the Non-Regulated Businesses.

The Group's financing strategy for the Regulated Businesses is based on two core strands:

- a) the diversification of the investor base; and
- b) maintaining the debt portfolio to a minimum of 60% unsecured.

The Group seeks to raise finance from diverse sources to minimise dependence on any one lender, investor or market. The Group has been successful in diversifying both the capital markets investor base and the Group's banking facilities providers, the latter enabling the Group to increase liquidity without impacting on gearing.

Unsecured debt is much more flexible and more efficient to issue. This enables the Group to take advantage more quickly of opportunities as and when they arise and helps to attract a wider investor base. The majority of new debt is issued off the Group's Euro Medium Term Note Programme which has the following covenant:

- Net available properties value > 1.1 times total unsecured debt.

As well as attracting new unsecured investors, opportunities will continue to be sought to proactively manage existing secured debt, replacing it with new unsecured debt using a variety of

liability management exercises. This will also ensure the Group maintains, and increases, its pool of unencumbered assets.

In addition to following the financing strategy the Group's borrowings will be structured to ensure compliance with the Group treasury policies:

- a) minimum 12 month forward cash commitment;
- b) P&L interest cover greater than 1.2x;
- c) gearing less than 60%;
- d) at least 70% of debt to be fixed interest rate; and
- e) all foreign exchange exposure fully hedged.

These policies, together with the unsecured debt covenant, are designed to ensure compliance with the Group's main debt covenants. There are a number of facilities within the subsidiaries of the Group but providing that the Group covenants are complied with, any potential issue at a subsidiary level could be addressed by the Group through either partial repayment of the facility or renegotiation with the investor.

The Non-Regulated Businesses are funded by a one-off equity injection from Places for People Homes Limited and a £65m bond issuance. Any debt that the Non-Regulated Businesses raise in the future will not be guaranteed by any of the Regulated Businesses.

5 Regulated and Non-Regulated Businesses: Co-Ordination and Protections

5.1 Principles

The principles governing the relationship between the Group parent and the Regulated Businesses shall include:

1. the Group parent will support the Regulated Businesses to meet their regulatory obligations;
2. the Group parent will not take any action that would cause any of the Regulated Businesses to be in breach of its regulatory obligations;
3. the committees of the Group Board will have regard to the particular requirements and sensitivities of the Regulated Businesses when discharging responsibilities delegated to them by the Group Board;
4. Group Board executive directors and members of Group management who perform a role that affects the Regulated Businesses and the Non-Regulated Businesses will have regard to the regulatory obligations of the former when discharging their duties;
5. common sources of corporate and support services will be used across the Group where possible but the Regulated Businesses will not be obliged to use a supplier (internal or external) that can be shown to be unsuitable in nature, performance quality or value;
6. the cost of internal services (including executive director attention) will be allocated proportionately;
7. there will be service levels agreed in relation to key intra-Group services with remedies prescribed for both service user and service provider;
8. where there is disagreement in relation to the operation of the relationship, the specific matter shall be escalated and addressed through a meeting of the Group Chair, the Senior Independent Director, the Group Chief Executive and the Group Affordable Housing Director.

15.2 Delegation of authority by the Group Board

- 15.2.1 In order to enable management to fulfil its management responsibilities, the Group Board has delegated to management all powers normally associated with running a business including the power to take any action in cases of urgency or emergency without formal Group Board approval (where that would ordinarily be required) provided that Group Board engagement is then sought immediately.
- 15.2.2 Other than in a situation requiring urgent action or an emergency, those delegated powers are subject to the Group’s governance framework from time to time. They are therefore limited by the matters reserved to the Group Board and by any matters delegated to any committee of the Group Board or any subsidiary of the Group parent. Those limits do not apply to the extent that the powers are exercised by action that has already been explicitly approved or has been delegated to management generally or to one or more members of management specifically. Even in those cases, the powers are required to be exercised having regard to all relevant prevailing internal management controls.
- 15.2.3 In addition to the general delegation to management of the powers necessary to run a business (including any powers necessary to respond to an emergency), the Group Board has delegated to the Group Chief Executive certain powers (subject to certain limits and conditions) set out in the attached Schedule of Delegations.

The Group Chief Executive may authorise management bodies and/or individual managers to assume powers derived from those delegated to him by the Group Board. Any such derived authority in relation to matters covered expressly by the Schedule of Delegations to the Group Chief Executive shall be set out in writing. The Group Chief Executive shall ensure that there is a system of internal control in operation in relation to powers delegated to him by the Group Board and in relation to any powers delegated by him to management bodies and/or individual managers.
- 15.2.5 Management may amend any policies or procedures without reference to the Group Board provided that any change that is material and of a nature that is reasonably likely to attract adverse attention to the Group shall be discussed first with the Chair of the Group Board, and/or the Senior Independent (non-executive) Director who may require the proposed change to be put before the Group Board prior to implementation.
