

Connect+

POWERED BY PLACES FOR PEOPLE

Infrastructure solutions for
every stage and scale.

Future-ready solutions for every part of your portfolio

With the Government pushing for **99% gigabit broadband** coverage by 2030, the pressure is on housing providers to deliver fast, reliable connectivity across every property — even the hardest to reach. **Connect+** helps you meet that challenge head-on.

Our expert rooftop and roof lease management team unlocks new opportunities for your assets — from enabling telecommunications infrastructure to maximising alternative uses. Whatever your goals, we'll help you get more value from every rooftop.

And with the Electronic Communications Code giving operators wide-reaching statutory powers, we'll be at your side to navigate negotiations and secure the best possible outcomes.

What Connect+ delivers

Full Fibre

- Rollout support — from planning to post-installation audits.
- Oversight and management from planning to pre-wire
- Fire safety compliance delivered by trained specialists.
- Expertise without the overheads — acting as your extended infrastructure team.
- Digital infrastructure upgrades at no cost to you.

Rooftops

- Negotiate Heads of Terms to maximise income from operators.
- Conduct site visits and apparatus checks.
- Manage rent reviews and RAM sign-off.
- Issue permits to work with full compliance.
- Dedicated team trained in rooftop safety.

Why partner with us?

- Over **30 years** of housing sector experience.
- Over **300 multi-dwelling properties** upgraded with full fibre.
- Relationships with all major UK broadband providers.
- Embedded understanding of regulatory and legal challenges.
- Dedicated to digital inclusion and safer homes.
- **10 years** in end-to-end fibre rollout.
- Experience of navigating the complexities of fibre providers

Your Customers deserve better access

With demand rising for streaming, remote working, and smart technologies, your Customers expect fast, reliable digital services. Connect+ supports you with all the preparation needed to get your Customers ready to connect.
