

We want to be key contributors to the Group's success

To be a high-performing, trusted procurement function that drives value, innovation, and partnership — delivering measurable impact for PfP through cost efficiency, supplier excellence, and strategic alignment.

WE WILL DO THIS BY

1 COST & VALUE OPTIMISATION

We maximise every pound by making smart decisions, and leveraging our scale and expertise to deliver savings, efficiency, innovation, and sustainable growth beyond just cost.

2 PROCESS AND COMPLIANCE

We embed efficient and compliant processes that balance agility with governance — ensuring transparency, accountability, and consistency across the organisation.

3 TRUSTED STAKEHOLDER RELATIONSHIPS

We build strong, collaborative partnerships across PfP and our supply chain — supporting stakeholders to make informed, strategic decisions that deliver tangible outcomes.

HOW TO WIN

Opportunities to Drive Value

We identify and deliver opportunities that optimise spend, improve efficiency, and maximise total value. We achieve this by leveraging the scale of the PfP Group and applying a strong commercial focus in everything we do.

Thinking Beyond Cost – Innovation, ESG & Social Value

We look beyond price to deliver positive impact. By embedding innovation, sustainability, and social value into our decisions, we help PfP create lasting value for people and communities.

Processes and Governance

We simplify and standardise processes to drive efficiency, transparency, and compliance. Robust governance provides the framework for consistency, accountability, and confident decision-making.

Tech and Data

We invest in data and technology to make smarter, faster decisions. Integrated systems and reporting improve visibility, insight, and performance across procurement and supply chain activity.

Business Partnering and Stakeholder Engagement

We build trusted partnerships across the business through proactive communication and collaboration. By aligning activity with business priorities, we deliver solutions that are practical, compliant, and value-driven.

Capability & Growth

We invest in our people to ensure we have the right skills, capacity, and structure to deliver. Through effective succession planning, development, and training, we build capability, confidence, and growth — creating a team that's equipped for today and ready for the future.

OUR CAPABILITIES

We analyse spend, supplier, and market data to inform strategy, drive performance, and guide business decisions.

We work closely with stakeholders and suppliers to align procurement outcomes with organisational needs.

We identify and deliver opportunities that improve efficiency, reduce costs, and create value.

We continuously streamline processes and systems to enhance productivity and user experience.

We assess and mitigate supplier and operational risks to ensure compliance and protect organisational integrity.

We challenge the status quo, explore new ideas, and embed ethical, sustainable, and socially responsible practices.
